

R-CC1

Truly universal plug which fixes into any base material, solid or hollow.

PACKAGING

FEATURES AND BENEFITS

The rawplug jar is an innovative form of packaging which presents our products in a groundbreaking new way

Thanks to its unique concept, it stands out from other fixings packaging regardless of how it is displayed. Its attractive look stems not only from the great visibility of its content through highly transparent walls, but also its impressive capacity for up to 1000 pieces of product

Large label allows presentation of comprehensive product information and suggestive marketing content

Modern and attractive design

High transparency packaging which perfectly exposes the product

Possibility of reusing the packaging after content consumption

Comfortable handle facilitates the transfer and transport of the product

Wide opening makes it easier to remove products

PRODUCT

FEATURES AND BENEFITS

Recommended for unknown substrates and exploited holes.

Short length enables successful use in thin walls.

Unique geometry guarantees maximum expansion and grip.

100% assurance of proper anchoring derived from unique split design of the plug in its top part.

Anti-rotation features prevent spinning in the hole.
