R-S1-FSHWD FLAT SCREEN TO KIT - SOLID V

Frame fixing with long expansion zone

PACKAGING

FEATURES AND BENEFITS >

Each packaging features two highly functional solutions: the Ziploc type re-sealable zipper and the sturdy upper packaging section. This allows for the bag to be opened and closed multiple times, provides for secure storage of products for a long time, and facilitates display by preventing the bag from folding.

Depending on the product type, and its weight in particular, the Rawlbag comes in two standard thickness versions. All this to ensure durability and strength of our packaging in transport, the highest quality of product display, and ultimately also long-lasting storage.

The bags are made entirely of low-density polyethylene, which makes them suitable for recycling and reduces the related purchase costs

PRODUCT

FEATURES AND BENEFITS

Frame fixing with countersunk plug and hexagonal head allows stable mounting of hard materials (e.g. steel)

Durable, high quality PA6 grade nylon plug for extended fixing life

Tough nylon sleeve prevents frame distortion during tightening

Zig-zag design ensures enhanced expansion

Special design with anti-rotation lugs

BASE MATERIALS ~

Hollow Brick

Aerated Concrete Block

APPLICATIONS ~

TV brackets
