Driven metal fixing for easy installation in plasterboard

PACKAGING

FEATURES AND BENEFITS

Each packaging features two highly functional solutions: the Ziploc type re-sealable zipper and the sturdy upper packaging section. This allows for the bag to be opened and closed multiple times, provides for secure storage of products for a long time, and facilitates display by preventing the bag from folding.

Depending on the product type, and its weight in particular, the Rawlplug comes in two standard thickness versions. All this to ensure durability and strength of our packaging in transport, the highest quality of product display, and ultimately also long-lasting storage.

The bags are made entirely of low-density polyethylene, which makes them suitable for recycling and reduces the related purchase costs

A (mm)
65 X 130

B (mm)
80 X 145

C (mm)
95 X 165

D (mm)
95 X 220

E (mm)
145 X 220

F (mm)
145 X 290

PRODUCT

FEATURES AND BENEFITS

Steel fixing for light weights

Simple installation due to introductory thread

Corrugated tip simplifies installation without drilling

Expanding construction of the fixing prevents from its spin in the substrate during installation

Flat head enables leveling fixing with the surface of the substrate

BASE MATERIALS

Plasterboard

APPLICATIONS

Light shelving

Pictures

Towel rails

Brackets, grips and hooks
