R-S1-STUDS THREADED RO

The sleeve for reduced mortar consumption and optimal mechanical interlock

PACKAGING FEATURES AND BENEFITS ~

Each packaging features two highly functional solutions: the Ziploc type re-sealable zipper and the sturdy upper packaging section. This allows for the bag to be opened and closed multiple times, provides for secure storage of products for a long time, and facilitates display by preventing the bag from folding.

Depending on the product type, and its weight in particular, the Rawlbag comes in two standard thickness versions. All this to ensure durability and strength of our packaging in transport, the highest quality of product display, and ultimately also long-lasting storage.

The bags are made entirely of low-density polyethylene, which makes them suitable for recycling and reduces the related purchase costs

PRODUCT FEATURES AND BENEFITS ~

Ensures that the anchor rod is properly centred

Reduces consumption of resin

User-friendly installation in hollow substrates

Size must be adjusted to the hole depth and diameter

Hole cleaning is not necessary

Concrete C12/15-C50/60

APPLICATIONS 🗸

For use with R-STUDS threaded

[English]: Stosowana w podłożach

Balustrading & handrails

Supports

Barriers

Racking systems

Consoles

Railings
