

RT-HSSP HSS drill bits

Ground HSS drill bits for a precise drilling in steel and non-ferrous metal

Certificate

Product information

Features and benefits

- Drill bits made of high-quality HSS steel, which ensures high durability
- Ground spiral enables you to drill precisely
- Double-sided geometry of the point (SPLIT POINT) ensures ideal centring and reduces pressure while drilling
- Point angle of 135° enables you to drill in hard steel
- Manufactured to DIN 338 standard, which ensures constant parameters and sizes of the drill bits

Applications

- Drilling holes in carbon steel, aluminum and non-ferrous materials

Base materials

- Structural Steel
- Metal Sheet & Profiles
- Aluminium
- Non-ferrous metals
