

RT-DDW Diamond disc for fresh concrete cutting

Diamond disc for fast cutting of wet and fresh concrete

Certificate
EAC  

Product information

Features and benefits

- Characteristic arrangement of diamond segments along with 4 vertical segments enables cutting fresh concrete without damaging the segments and wedging in the material
- High-quality laser connection between the segments and the disc increases the service life and the cutting efficiency
- Special, patented process of connecting segments with a disc core, reduce vibrations, increasing safety and work efficiency
- Special segment shape enables cutting wet concrete
- European diamond grains significantly increase the life of the disc and allow it to uniform abrasion

Applications

- Segmented diamond disc, with additional vertical segments for cutting wet concrete
- Adapted to work with stationary cutters manual and wheel petrol cutters (7,5 kW)

Base materials

- Fresh concrete
