

MN-85-105 ELECTRONIC SLIDE CALIPERS PVC

Precise electronic PVC caliper with measuring range 0-150 mm.

Features & benefits

- Made of PVC ensures aesthetics and low weight of the product
- Large liquid crystal display LCD (measuring range: 0-150 mm) facilitates precise reading of the measurement result
- Measurement can be conducted in millimetres and inches with the following accuracy: 0.02 mm/0.001 inch (<100 mm) 0.03 mm /0.001 inch (>100 - 150 mm)
- Sliding out handle of the slide caliper allows the measuring of depths
- Packed in a plastic case

Applications

- Designed for dimensional control of small parts of machines, devices and their components

Users

- DIY enthusiasts
- Mechanics
