

MN-70-55 anodised spirit level Gold, 90°, 0°, 45°, handle, magnets

Manufactured in Poland, high quality Gold anodised spirit levels with a measurement accuracy of up to 0.4 mm/m.

**Features & benefits**

- Measurement accuracy up to 0.4 mm/m.
- Very good value for money and functionality.
- Polish production guarantees the highest precision of workmanship and its repeatability.
- Strong magnets for easy measurement.
- All products have certificates confirming the quality and parameters.
- [English]: 3 libelle pokazujące pion, poziom i 45°.
- Spirit level without sharp edges, made of high-quality acrylic glass, can be easily and quickly cleaned of dirt.
- The anodized coating protects the aluminum spirit level, creating an abrasion resistant, hard and tight protective layer.
- Ergonomic handles allow for easy handling and holding while working.
- 100-year guarantee on the fixing and seating of the vials.
- Bumpers made of high-impact shock-absorbing plastic.
- The alcohol-based liquid filling the vials is completely UV-resistant and does not fade over time, and the bubble does not separate into smaller ones even after impact.
- DUAL PROTECT vials have double shatterproof protection, thus guaranteeing high resistance to mechanical damage caused by falls or impacts.

Applications

- Levels designed for construction work.

Users

- Tilers
- Bricklayers
- DIY enthusiasts
- Gypsum plasterers
- Plumbers
