

R-RC RawlCase

The system's transport case, which connects to cases of different dimensions, enables convenient transport of tools and power tools.

Product information

Features and benefits

- Made of ABS material characterized by high hardness and scratch resistance
- The patented "Click" locking system enables the connection and transport of several RawlCases at the same time
- The specially designed shape of the housing allows to combine cases of different sizes
- Foldable handle with a load of 100 kg ensures that the suitcase can be grasped and held securely while carrying it
- Dedicated internal handles for A5 format manuals keep documents in order during use
- Additional side handles make it easy to carry a case with heavy-duty equipment

Applications

- Intended for storage and transport of tools and power tools
