

R-PGL Protective gloves for power tools

Protective gloves with special cushions to reduce vibration when working with power tools

Certificate

Product information

Features and benefits

- Made of high quality materials such as synthetic leather, protect hands while working
- Strong bur prevents the glove from slipping during use
- Special pads on the inside of the glove provide better grip and partially suppress the vibration so that the work is not burdensome
- Strengthening the glove on a part of the thumb prevents the material from rubbing when working with power tools

Applications

- Designed to protect hands while working with power tools
