

MN-91-148 Cordless drill-driver 18 V 22 NM

Screwdriver compatible with Modeco System 18V batteries, designed for screwing in bolts and screws

Features & benefits

- Power tool compatible with Modeco System 18V batteries
- 10 mm single-thread drill chuck
- Two gears allow the speed and torque to be adjusted to the work being performed
- 20 positions of the coupling allows optimal selection of torque for screwing in various sizes of screws and screws depending on the type of substrate
- Ergonomically placed direction of rotation switch (left/right) allows the user to quickly change between screwing in and screwing out
- Electronic protection stops the tool if the drill bit is stuck in the material in order to protect the user and the tool (motor and battery)
- The LED illuminates the workplace
- Holder for suspending the screwdriver on the belt facilitates work in places where it is not possible to put the device down.
- Has the option assembly on the right or left side of the device for right- and left-handed users
- Rubberized, profiled grip increases grip and work convenience
- Modes of planetary gear are made of high-quality steel, which influences the service life of the tool
- The set does not include a battery and a charger

Applications

- Intended for drilling e.g. in metal, wood or plastics
- Intended for screwing bolts and screws

Equipment

- Drill driver MN-91-148
- Belt strap
- User manual

Users

- Fitters
- DIY enthusiasts
- Mechanics
- Electricians
- Carpenters
