

MN-23-060 Automatic wire stripping pliers 180mm 0.2-6mm²

The automatic insulation stripper for cables of various shapes and diameters

Features & benefits

- 2 devices in one - cutting and stripping with cable processing to a specific length
- The durable polyamide body reinforced with glass fiber
- For wires with a cross-section of 0.2 mm² to 6 mm² (24-10 AWG)
- The trigger lock ensures safe and compact transport
- The contoured, ergonomic handle ensures a comfortable grip and operation of the tool
- The wire cutter located in the handle guarantees cutting of Cu and Al wires with a maximum cross-section of 2 mm²
- The smoothly operating mechanism allows for quick and precise cutting and stripping of the insulation without damaging the cores
- The slim shape allows you to work even in hard-to-reach places
- The stripping length adjustment in the range of 5-12 mm guarantees high accuracy and repeatability of work
- The high-quality hardened steel knives guarantee durability and fast and effective insulation stripping
- Automatic adaptation to the cable cross-section protects it from damage and increases work efficiency

Applications

- Application during electrical installation works
- For stripping electrical wires

Users

- Electricians
- Fitters
- Mechanics
- DIY enthusiasts
