

MN-72-5 ALU Skimming spatula

A modern and ergonomic way of filling

Features & benefits

- Designed for wall and ceiling finishing work.
- Ergonomically designed profile fitting perfectly to the hand for secure grip.
- Hardened stainless steel blade – resilient and wear resistant. It adapts perfectly to the working angle.
- The anodized aluminum profile is light, ergonomic and improves work comfort.
- Bent and curved blade ends preventing surface scratching.
- 5 most common width variants: 250, 400, 600, 800, and 1,000 mm for skimming and smoothing of surfaces with different sizes and places hard to reach.
- Replacement blade system significantly extending the tool's service life.
- 0,3 mm thick blade for compound spreading in a very thin film.

Applications

- Putty intended for filling walls and ceilings.

Users

- Gypsum plasterers
- Painters
- DIY enthusiasts
- Tilers
- Bricklayers
