

[English]: RT-GS-UB Uniwersalny klej czarny w sztyfcie

Universal black glue sticks for bonding the majority of commercially available materials

Product information

Features and benefits

- The diameter of 12mm allows the adhesive to be used in most adhesive guns available on the market
- Short curing time, 30-35 seconds, allows for quick work
- The length of 200 mm allows for a longer operating time on one glue stick
- Does not emit odor while working
- Resistance to temperature of -5°C enables operation at low temperatures
- Operating temperature of 170-210°C

Applications

- Universal black glue sticks for bonding the majority of commercially available materials

Base materials

- Cardboard
- PVC Profile
- Wood
