

RT0-BIT-PZ Pozidriv screwdriver bits

Pozidriv screwdriver bits with precision milled head

Product information

Features and benefits

- Specially heat treated in the hardening process to increase the hardness of the tip to 60 HRC
- Precision milled head tip allows for precise fitting into the screw socket
- The special shape of the tip increases its resistance to twisting under the so-called torsion effect
- Anti-corrosion coating, blue colour, prevents rust

Applications

- Screwdriving of Pozidriv screws, a wide range of applications in wood and light mountings
