

## MN-03-180/P Toolbox set, organiser+box 26l+box 38l

Modular tool box system for transporting and storing tools.

### Features & benefits

- The organizer and boxes are compatible with other Multi Storage System boxes.
- Made of polycarbonate, the transparent and robust organiser lid is impact-resistant.
- 9 removable internal containers that can be hung on the wall.
- Reinforced ribbed construction of the organiser and boxes made of robust plastic.
- Precise and strong side connectors to connect with other elements of the system.
- Durable polyamide lid fasteners.
- Capacity: 14.3 l organiser, 26 l case + 38 l wheeled case.
- 2 adjustable internal dividers in the toolboxes for organising the load space.
- Possibility of padlocking the boxes.
- Sturdy box handle with locking in 90° position.
- Lid locking device to prevent the lid from closing automatically.
- The 38 litre box is a mobile base for building personalised sets and is equipped with large, wide wheels on a steel axle covered with rubber.
- Adjustable telescopic transport handle.

### Applications

- Modular tool box system for transporting and storing tools and other items.

### Users

- DIY enthusiasts
- Mechanics
- Fitters
- Gypsum plasterers
- Road workers
