

## MN-17-050 Vehicle circuit tester

### Vehicle circuit tester 6-24 V

### Certificates (icon):

### Features & benefits

- Equipped with a LED diode and a cable as well as a compression fitting enable an easier check of vehicle installation

### Applications

- Intended for controlling wirings in motor vehicles equipped with such wirings (enables you to detect DC voltage 6-24V)

### Users

- Mechanics
- DIY enthusiasts

### Technical properties
