

MN-20-62 Plumber's pliers friendly grip

Plumber's pliers with two-component ergonomic handle

Features & benefits

- High quality of carbon steel enables long service life of the tool
- Precisely ground jaws which have a special shape permit a secure grip of objects of various shapes
- Two-component ergonomic handle enables perfect adjustment of the tool to a hand
- Thanks to a special construction, the maximum opening of jaws allows you to grip objects of diameter up to 35 mm

Applications

- Intended for all types of installation and assembly works, e.g. in workshops, service centres and at home

Users

- Plumbers
- Fitters
- Mechanics
- DIY enthusiasts
