

MN-20-61 Plumber's pliers americana

Plumber's pliers with one-component handle

Features & benefits

- Tool is made of high quality carbon steel which provides its long service life
- The tool is protected with a galvanic coating which makes it resistant to corrosion
- One-component handle with shaped hand protection prevents the contact with the metal part of the tool
- Thanks to a special construction, the maximum opening of jaws allows you to grip objects of diameter up to 30 mm

Applications

- Intended for all types of installation and assembly works, e.g. in workshops, service centres and at home

Users

- DIY enthusiasts
- Plumbers
- Fitters
- Mechanics
