

MN-32-026 Hammer axe with metal handle

Plasterer's hatchet with a metal tubular handle and non-slip grip

Features & benefits

- Hammer handle is made of a metal pipe, which makes the handle light and durable
- Resistant rubber handle with anti-slip coating provides a secure grip

Applications

- The special shape of the hammer head enables a wide range of works to be performed (sticking, pulling out, unbending, smashing)

Users

- Gypsum plasterers
- DIY enthusiasts
