

## MN-30-00 Locksmith's hammers

Locksmith's hammer forged with handle made of beech wood with flat wedge

### Features & benefits

- A handle is made of beech wood, additionally varnished, which makes it resistant to atmospheric conditions
- Traditional flat wedge firmly joins a hammer handle with its head
- Hammer head is made of forged steel, inductively hardened, provides durability of a hammer (hardness 42-45 HRC)

### Applications

- Intended for all types of easy works (sticking, tapping, straightening out etc.)

### Users

- Joiners
- Roofers
- Road workers
- Gypsum plasterers
- Tilers

### Corresponding products

- MN-03-401 Tool belt
