

MN-85-101 Electronic slide caliper INOX

Stainless steel electronic slide caliper with large LCD display

Features & benefits

- Execution of stainless steel ensures aesthetics and durability of the product
- Large liquid crystal display LCD (measuring range: 0-150 mm) facilitates precise reading of the measurement result
- Measurement can be conducted in millimetres and inches with the following accuracy: 0.02 mm/0.001 inch (<100 mm) 0.03 mm /0.001 inch (>100 - 150 mm)
- Sliding out handle of the slide caliper allows the measuring of depths

Applications

- Indispensable for dimensional inspection of small parts of machinery, equipment and their components
- Indispensable in each professional mechanical service

Equipment

- Packed into plastic case

Users

- Mechanics
- DIY enthusiasts
