

MN-68-5 Sanding sheets

Resistant to breaking and abrasion fibreglass mesh with aluminium oxide coating

Features & benefits

- Fibreglass mesh increases abrasion and breaking resistance
- Evenly spread aluminium oxide coating on the mesh does not cause clogging while working
- Free spaces between the coating make sawdust removal easier while working

Applications

- Intended for smoothing drywall and wooden surfaces

Users

- Tilers
- Fitters
- Varnishers
- DIY enthusiasts
- Painters
