

MN-05-13 PVC masking tapes

Professional white PVC painter's tapes

Features & benefits

- Made of PVC which assures its resistance to UV radiation
- Appropriate structure and glue protects against paint soaking
- Covered with a special glue which allows its removal without damaging paint
- Special coating provides water resistance

Applications

- Intended for securing and masking surfaces while painting with acrylic, emulsion paints or others. It is also useful for taping light cardboard boxes

Users

- Painters
- Plasterers
- DIY enthusiasts
- Roofers
- Fitters
