

**MN-05-006 Colour insulating tape 15 mm x 10 m**

**Universal insulating tape 15 mm x 10 m, dielectric strength up to 1 kV**

**Features & benefits**

- Dielectric strength up to 1 kV enables the insulation of electrical cables
- Made of PVC which assures its resistance to high temperatures while retaining its self-extinguishing properties
- Rubber glue assures its adhesive strength

**Applications**

- Intended for construction, modernisation and refitting of electrical wirings

**Users**

- Electricians
- Fitters
- DIY enthusiasts
- Plumbers
- Mechanics

**Technical properties**

Index	Isolation	Width of the tape	Length of the tape	Box	Outer	Box weight	Outer weight	EAN
