

MN-05-612 Black stretch film

Universal black stretch film 500 mm x 140 m

Features & benefits

- High tensility of the foil increases elasticity up to 150%
- Through-dyeing provides high colour fastness
- Stretch film wrap increases abrasion resistance
- Thickness of 23 microns assures very high tensile strength
- Black colour assures no light transparency

Applications

- Intended for packing, binding and securing various types of items
- It may be used both inside and outside of rooms
- It reinforces film-wrapped items to prepare them for possible storing and transporting

Users

- Warehousemen
- DIY enthusiasts
- Painters
- Roofers
- Road workers
