

MN-05-61 Transparent stretch film

Universal transparent stretch film 500 mm x 140 mm

Features & benefits

- High tensility of the foil increases elasticity up to 150%
- Stretch film wrap increases abrasion resistance
- Thickness of 23 microns assures very high tensile strength
- Transparent layer facilitates light transparency

Applications

- It reinforces film-wrapped items to prepare them for possible storing and transporting
- It may be used both inside and outside of rooms

Users

- Warehousemen
- DIY enthusiasts
- Painters
- Roofers
- Road workers
