

MN-06-109 Face shield

Approved face shield with adjustable hinges

Certificates (icon):

Features & benefits

- Polycarbonate lenses are resistant to scratching and all mechanical damage
- Adjustable circumference of the head and its embedding depth provide optimum face protection against splinters
- Screw hinges allow you to adjust optimum visor against the face, which also increases protection against splinters.
- Visor material protects against UV radiation

Applications

- Intended for protecting the face and eyes against splinters from processed materials

Users

- Joiners
- Fitters
- DIY enthusiasts
- Mechanics
- Painters
