

MN-64-02 Axe, wooden handle with wedge

Axes with hardened steel wedge and ergonomic wooden handle

Features & benefits

- Working part is made of forged steel and it is inductively hardened, which increases resistance to flattening
- Sleeve and wedge prevent the axe head from slipping off the handle
- Special shape of the wedge in the back of the axe allows you to split large elements
- Ergonomic wooden handle increases work comfort
- Ash wood makes the handle both hard and resilient and ensures its long service life

Applications

- Intended for chopping and splitting wood

Users

- Gardeners
- DIY enthusiasts
