

MN-99-921 Extension cord reel 10 m

Extension cord reel 10 m with a case and built-in fuse

Certificates (icon):

Features & benefits

- 10m extension cord reel with a case and a handle allows you to wind the cable to the inside
- 4 earthed sockets for connecting several devices at the same time
- Cable cross section 3 x 1.5 mm² for safe connection of the devices with a total rated power of up to 3000 W (if the cable is unwound) and 1000 W (if the cable is wound on the reel)
- Power Protection System is a surge protector with a built-in fuse, which protects the device connected against surges occurring in the power supply
- Children protection system protects holes in the sockets against children, accidental short circuit and drops of water
- Ingress protection of IP44 ensures that it can be used in the environment where there may be splashes of water
- Closed case protects the cable during transport and storage

Applications

- Intended for connecting power tools and garden tools

Users

- DIY enthusiasts
- Fitters
- Electricians
- Plumbers
- Gardeners
