

## MN-15-402 25 mm PH TiN Torsion bits

**Torsion-resistant TiN-coated PH Torsion bits made of S2 steel**

### Features & benefits

- High quality S2 steel increases service life and allows you to use a greater number of screws and fasteners
- Additional coating of Titanium Nitride TiN significantly increases the bit hardness
- Special construction ensures its increased torsion-resistance, i.e. the effect of Torsion
- ACR system and the corrugated head of the bit facilitate handling of the screw during work
- 55-58 HRC steel hardness increases resistance to torsional stresses while screwing and extends the service life of the product

### Applications

- Intended for screwing the screws into wood and drywalls, as well as for other fastenings with the Philips socket
- Intended for use with a cordless drill and driver

### Equipment

- 20 bits in one packaging

### Users

- Gypsum plasterers
- Roofers
- Electricians
- Fitters
- DIY enthusiasts
