

## MN-60-9 Set of ground bits for metal HSS-G

### Sets of ground bits for metal HSS-G 6, 10, 13 pieces

### Features & benefits

- High-quality M2 steel improves service life and resistance to high temperature while drilling
- Polished surface of the drill bit improves precision and accuracy of the drilled holes
- 135 degree point angle enables precise drilling of holes in hard steels
- Design according to DIN 338 guarantees high quality standards (e.g. fixed dimension tolerance of the drill bit)
- Diameters of the most commonly used drill bits for concrete arranged in a special case are practical to use

### Applications

- For drilling in steel and hard metal, including non-ferrous metals
- Intended for using with a drill and cordless drill-driver
