

MN-76-104 Tungsten-coated hole saw set

Set of hole saw cutters with tungsten carbide tip for drilling in ceramic tiles

Features & benefits

- Tungsten coating enables non-hammer drilling of large diameters in hard and brittle ceramic materials, i.e. tiles and terracotta
- Pilot drill enhances precision during and at the start of the drilling
- Catches of hole saw provide a strong mouting in the outer ring and constant drilling parameters

Applications

- For drilling holes in ceramics, tiles and terracotta
- Intended for using with a drill and cordless drill-driver
- Hole saw sizes of 33 mm and 53 mm are used for hydraulic installations, e.g. heating and water supply pipes
- Hole saw sizes of 67 mm and 83 mm are used in electrical installations, e.g. light switches and sockets

Equipment

- Pilot drill
- Mounting ring
- 4 hole saws with tungsten carbide coating
