

MN-68-81 Abrasive flap discs

Flap discs with evenly spread flaps for polishing metal and wood

Features & benefits

- High concentration of evenly spread flaps enhances durability and affects the quality of the material that is being finished
- High-quality adhesive that hold the flaps increases the flap disc durability
- Diverse grit size of the paper allows you to grind the surface precisely
- Designed to work without the need to cool them with water
- Inner hole 22.23 mm allows you to use them with all angle grinders with disc diameter 115 mm and 125 mm

Applications

- For grinding and sanding metal and wood
- Intended for using with angle grinders

Users

- Varnishers
- Mechanics
- Joiners
- Welders
- Carpenters
