

MN-68-93 Flap discs for aluminium cutting

Flat flap discs type 41, with thin gauge, for cutting aluminum

Features & benefits

- High-quality silicon carbide provides long durability
- Thin gauge of the disc enables faster and more precise cutting and small kerf
- Bakelite bond, reinforced with a mesh, increases disc strength at high revolutions
- Abrasive grain size 46 assures high quality and precision of cutting
- Disc hardness R (semi-hard) increases durability and cutting speed

Applications

- For cutting aluminum and other non-ferrous metals
- Intended for using with angle grinders

Users

- Locksmiths
- Plumbers
- Fitters
- DIY enthusiasts
- Mechanics

* Discontinued

Warnings

- Always use eye protection
- Always use gloves
- Always use dust mask
- Always use ear protection
- Always use safety workwear
- Maximum grinder operating speed is 80m/s
