

MN-79-06 Mixing paddles type A for mixing paints and liquid materials

Mixing paddles type A with short spiral for liquid materials

Features & benefits

- Mixing paddles type A with short spiral enables accurate mixing of paints and other liquid materials
- Thick bottom ring increases the resistance to abrasion and extends the service life of the mixing paddle
- Wide spiral does not bend when mixing
- Accurate large welds increase the resistance of the mixing paddle during work under high load
- Hexagonal grip allows you to mount in the key drill chuck and keyless drill chuck securely
- Direction of mixing enables the accurate mixing of loose construction materials

Applications

- Intended for mixing of emulsion, dispersion and acrylic paints, and wood stains

Users

- Painters
- Bricklayers
- Gypsum plasterers
- DIY enthusiasts
- Fitters
