

## MN-79-0 Mixing paddles type E for mixing putty plasters and gypsum plasters

### Bird cage mixing paddles type E for plaster and gypsum plasters

#### Features & benefits

- Bird cage mixing paddles type E allows you to vent and mix plaster and gypsum plasters precisely
- Thick bottom ring increases the resistance to abrasion and extends the service life of the mixing paddle
- Accurate large welds increase the resistance of the mixing paddle during work under high load
- Thick, folded wire does not buckle when mixing
- Different fastening systems allow you to use more machines such as drills, hammer drills SDS +, mixers with M14 threads
- Direction of mixing, sideways from the axis, allows you to accurately mix any gypsum plasters without the effect of aeration

#### Applications

- Intended for mixing plaster and all types of gypsum plasters

#### Users

- Gypsum plasterers
- Bricklayers
- Painters
- Tilers
- Fitters
