

MN-69-19 Brass-coated wire cup brushes

Wire cup brushes for drills and for wood and metal processing

Features & benefits

- High-quality wire increases brush durability
- Brass-coated crimped wire with a thickness of 0.35 mm allows you to grind finishes
- Shank 1/4" allows you to use them with the majority of drills and drill-drivers available on the market.

Applications

- For precise grinding steel and non-ferrous metals
- For removing rust, paint and paint finishes from surfaces
- Intended for using with a drill and cordless drill-driver

Users

- Locksmiths
- Fitters
- Tinmen
- Joiners
- DIY enthusiasts
