

## MN-97-90 Welding rods

### Universal welding rod for welding structural steel 1 kg

### Features & benefits

- Universal welding rod with rutile-cellulose coating can be used for the welding of structural steels
- Various diameters also enable you to weld thin wall structures
- Construction of the welding rod allows you to weld in all positions, especially in the vertical position from the top down
- Chemical composition reduces sensitivity to atmospheric conditions
- It is suitable for welding with the use of all welding equipment available on the market

### Applications

- Intended for welding steel structures exposed to static and dynamic loads
- Recommended for assembly works

### Equipment

- Electrodes, 5 kg in a single package

### Users

- Welders
- Road workers
- Fitters
- DIY enthusiasts
- Mechanics
