

R-SC40-MCS double metal clip for low voltage fire protection systems

Double metal clip for low voltage electric installations

Product information

Features and benefits

- Can be used in passive fire protection systems due to increased fire resistance
- With its special design and issued certificate it is dedicated to secure low-voltage electrical systems, e.g. CCTV, alarm or fire protection systems
- 5 microns of zinc coating provides good protection against corrosion
- Product compatible with majority of the gas powered tools available on the market, which allows to match accessories with your equipment

Applications

- Installation of low voltage cables in alarm, CCTV, IT and fire protection systems

Base materials

- Concrete
- Solid Concrete Block
- Cracked Concrete

Corresponding products

- R-KNC plastic collated concrete pins with fuel cells
- R-KSC plastic collated pins for steel with fuel cells
- R-RAWL-SC40 Gas powered steel and concrete nailer
