

MN-32-10 Stoning hammers fiberglass

Stoning hammer with "fiberglass" handle and hardened hammer head

Features & benefits

- Double-sided hardened hammer head 55HRC ensures high durability of the tool
- Well balanced, which enables light and strong strikes
- Hammer handle is made of special glass fibre, which ensures lifelong durability and deadens vibrations, thus enhancing work comfort

Applications

- Intended for tapping, cracking and other construction works (after the rubber pad is fitted, e.g. paving stone, tiles, kerbs etc. may be tapped)

Users

- Road workers
- Fitters
- Masons
- DIY enthusiasts
