

MN-63-042 Steel knife for trapezoid blades

Knife with replaceable trapezoid blade and cable cutter

Features & benefits

- Aluminum body enhances durability and work comfort
- Two-component handle allows you to work under big pressure, which enables you to cut thick materials
- Cable cutter enables you to remove insulation
- External blade lock mechanism enables a quick replacement of the blade
- Retractable blade improves safety and facilitates transportation

Applications

- Intended for electrical wiring works, cable cutting and removing the insulation
- Intended for precise cutting of thick materials with higher pressure such as: drywall, paper, leather, plastics, etc.

Users

- Electricians
- DIY enthusiasts
- Gypsum plasterers
- Fitters
- Varnishers
