

RT-SDSD Drill bits SDS plus with collar

Drill bits SDS plus with collar for anchors with internal thread

Certificate

Product information

Features and benefits

- Monolithic carbide tip increases the life of the drill bit
- Centre point for quick commencement of drilling without the drill slipping
- 3 symmetrically arranged cutting edges allow for perfectly straight and axial drilling
- Angle tip 135° allows drilling in reinforced concrete
- Very deep seating of carbide plate significantly improves connection with the drill core, which affects quality
- 3 material extraction surfaces and special shape of the drill facilitate the removal of dust
- Steel with specification 34CrNiMo6 provides high strength and durability

Applications

- Drilling anchor with inner thread in concrete and reinforced concrete
- Suitable for operation with SDS plus hammer drill

Corresponding products

- R-DCA Wedge Anchor
- R-DCA-A4 Stainless Steel Wedge Anchor
- R-DCL Lipped Wedge Anchor

Base materials

- Reinforced concrete
- Concrete
