

## MN-92-091 Multifunction tool 300 W

### Multifunctional tool 300 W for precise processing of wood and other materials

### Certificates (icon):

### Features & benefits

- Multifunction tool has a wide range of applications and is perfect for making precise cuts
- As an oscillating tool, it allows cuts to be made within the material being worked on, e.g. a wooden panel, without the need for notching or drilling
- A reach set of accessories enables a large variety of works to be carried out, e.g. cutting and sanding wood, wood-based materials, plastics, metals, as well as grinding and scraping
- The ability to adjust the rate of oscillation between 10,000-18,500 oscillations per minute allows a suitable mode of operation to be set for the work being performed
- Dust extraction adapter keeps the workplace clean
- The shape of its body and its low weight allow the tool to be operated comfortably with only one hand and reduce fatigue during work
- Rubber handle elements increase comfort and precision of operation
- Universal size of the frame allows various types of blades to be used
- Aluminum housing of the spacer increases the tool's durability
- A 3 m long cable provides the user freedom of operation without the need to move the power source
- Carrying case enables easy transport of and provides convenient storage space for the tool and all its accessories
- **Red Plug Service** guarantees quick repair of a broken tool through free courier shipment from and to the customer

### Applications

- Intended for cutting various materials depending on the blade used
- Intended for grinding and sanding various materials such as metals, plastics, wood, etc.

## Equipment

- Straight saw blade for metal cutting
- Semi-circular saw blade for wood cutting
- scraper
- Sanding pad
- Sandpaper (3 sheets)
- dust extraction adapter
- Spanner
- Carrying case

## Users

- DIY enthusiasts
- Carpenters
- Fitters
- Electricians
- Plumbers
