

SN Interaset Sleeve

Interaset fixing for permanent anchorages in cavity walls. Zinc-plated metal fixing.

Product information

Features and benefits

- Combination head screw not supplied
- Integral anti-rotation lugs
- Hinged legs designed to maximise load-bearing capacity

Applications

- Shelves and bathroom accessories on standard plasterboard
- Radiators and kitchen cabinets on double thickness and tiled plasterboard
- Pictures
- Lamps
- Electric switches
- Towel rails
- Curtain rails
- Coat hooks on hollow doors

Base materials

Suitable for use in

- Plasterboard
- Gypsum Fibreboards
- Chipboard
- Oriented Strand Board

Installation guide

1. Drill a hole of required diameter.
2. Insert the fixing into the hole. Tap in lightly, ensuring that the anti-rotation lugs penetrate the face of the base material
3. With the hole drilled and the fixing inserted, the setting tool or screw driver is used to pull the screw head, thus expanding the fixing body
