

FTF Fir Tree Fixing

Firtree Fixings securely hold back surface mounted beads through the reinforcement coat and into the insulation

Product information

Features and benefits

- The button contracts on entry and then relaxes to secure the two panels.
- Simple and quick to install.
- Plastic ribs on the fir tree fastener flex inwards as the item is pushed into place and then relax to grip the sides of the hole into which it has been inserted. This forms a secure fastening in the panel or sheet.

Base materials

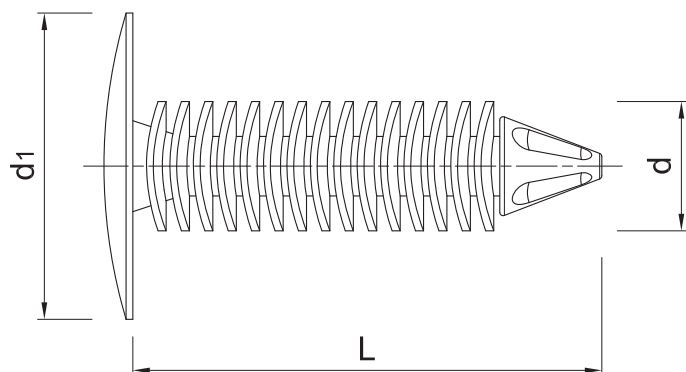

Approved for use in:

- Polystyrene (EPS) Boards
- Mineral Wool Boards

Installation guide

1. Firtree Fixings are applied through the reinforcement coat and securely into the insulation.
2. The fixings can be easily pushed in by hand or tapped in with a small hammer.
3. Use 3 fixings per linear metre.
