

[Lithuanian]: MN-72-581 Adapter for skimming spatula

[Lithuanian]: Strong adapter with angle adjustment and universal mounting socket

[Lithuanian]: Features & benefits

- [Lithuanian]: The joint of the adapter with a serrated lock guarantees that the putty angle is maintained.
- [Lithuanian]: The clamping screw allows you to easily adjust the tilt of the putty in relation to the telescopic stick.
- [Lithuanian]: Two adapter levers facilitate quick removal from the putty.
- [Lithuanian]: The precise and strong jaw chuck adheres perfectly to the profile of the putty and guarantees a firm hold.
- [Lithuanian]: Made of high-strength plastic, it ensures a stable connection and a long service life.
- [Lithuanian]: Adjusting the tilt angle from 90° to 180° allows for individual adjustment of the tilt of the putty, increasing the comfort of work.
- [Lithuanian]: Two types of mounting socket - threaded and pressed.

[Lithuanian]: Applications

- [Lithuanian]: For joining skimming spatula with a telescopic handle.

[Lithuanian]: Users

- Gipso tinkuotojai
- Dažytojai
- DIY entuziastai
- Plytelių klojėjai
- Mūrinkai
