[Lithuanian]: MN-10-58 PH INSULATED SCREWDRIVERS

[Lithuanian]: Professional VDE SLIM screwdrivers for electricians

[Lithuanian]: Certificates (icon):

CE VDE

[Lithuanian]: Features & benefits

- [Lithuanian]: The fully insulated screwdrivers protect the user from electric shock
- [Lithuanian]: The 3-component, contoured handles ensure the secure grip and convenient working of the screwdrivers
- [Lithuanian]: The tips made of S2 tool steel are hard and durable, corrosion resistant and non-magnetic
- [Lithuanian]: The VDE-certified insulation confirms that the screwdrivers have been tested in the laboratory accredited by the German Testing Institute VDE and meet the requirements of EN 60900
- [Lithuanian]: The insulated tips in the SLIM version allow of work in hard-to-reach places
- [Lithuanian]: The special profile of the handle makes it possible to work with the open-end wrench

[Lithuanian]: Applications

- [Lithuanian]: Intended for any work on electric installations

[Lithuanian]: Users

- Elektrikai
- Montuotojai
- DIY entuziastai
- Mechanikai
