

## [Lithuanian]: MN-23-068 Insulation stripper

### [Lithuanian]: Cable stripping knife

### [Lithuanian]: Features & benefits

- [Lithuanian]: Smooth adjustment of the cutting depth by means of an adjustable screw at the end of the handle allows you to work without damaging the internal wires
- [Lithuanian]: The self-tightening blade holder ensures that the blade is guided securely
- [Lithuanian]: The durable housing made of high-quality, wear-resistant ABS material
- [Lithuanian]: The protective hood for the blade protects them against damage during transport and protects the user against injury
- [Lithuanian]: The rotating inner knife for making round and length cuts
- [Lithuanian]: A secure grip thanks to inserts made of soft components on the handle
- [Lithuanian]: 2 outer blades - straight for precise and quick cutting of the insulation, hook-shaped for safe removal of the outer sheath
- [Lithuanian]: A wide working range of Ø 8-28 mm, making it possible to strip all round cables

### [Lithuanian]: Applications

- [Lithuanian]: Application during electrical installation works
- [Lithuanian]: For stripping electrical wires

### [Lithuanian]: Users

- Elektrikai
- Montuotojai
- Mechanikai
- DIY entuziastai
