

## [Lithuanian]: MN-26-020 Cable cutters

## [Lithuanian]: Cable cutter for precise cutting of thick cables

## [Lithuanian]: Features &amp; benefits

- [Lithuanian]: Two-stage ratchet mechanism allows you to cut cables of different diameters and retract the movable blade at every stage of the work
- [Lithuanian]: The optimal gear ratio allows to minimize the force needed to cut the cable
- [Lithuanian]: Cutting without crushing and deforming the cables thanks to precisely finished hardened blades with a hardness of 54-56 HRC
- [Lithuanian]: Special handles on the handle allow the pliers to be supported while cutting
- [Lithuanian]: Clean and smooth cutting of thick cables with a maximum diameter of 32 mm or a cross-section of 325 mm<sup>2</sup> thanks to the ratchet guide of the blade

## [Lithuanian]: Applications

- [Lithuanian]: Application during electrical installation works
- [Lithuanian]: For cutting aluminum and copper single and multi-core cables

## [Lithuanian]: Users

- Elektrikai
- Montuotojai
- DIY entuziastai
- Mechanikai
